

OZONE Generator : **M-OZONE**

OZG 1000 mg

How to prevent yourself from COVID-19?

Ozone gas has been proven to kill all viruses so the good way to prevent yourself from COVID-19 and SARS is deploying ozone gas.

FEATURE

- High concentration ozone gas from corona discharge generator
- 99.99% Virus and airborne bacteria reduction
- Suitable for drinking water ozonizer
- Suitable for odor removal ozonizer

Corona Discharge Ozone Generator

- Generates high ozone concentrations
- Best for water applications
- Fast organic (odor) removal
- Consistent ozone output
- Maintenance Free

SERVICES AVAILABLE

- 1 Year Warranty
- Technical Support
- Application Support
- Service Center

SPECIFICATION

Ozone Gas Capacity	1000 mg/hr
Internal Air supply	Dry Air Flow 5 LPM at 14.7kPa
Working Temperature	Ta 10 °c to 50 °c
Supply Voltage	220/230V 10Ø, 50/60Hz
Cooling System	Air cooling system for ceramin chamber
Monitoring	Pilot Lamps Indicator
Warning Red LED Lamp	Ozone Connection>0.1ppm
Housing	ABS
Class of protection	IP20
Dimensions	420x220x520mm
Weight	13.7kg

Note :

- 1.System comprised with ozone generator.
- 2.Specifications are subject to change without notice.
